REVOLUTION BREAKS OUT IN MEXICO; MANY KILLED IN SUNDAY UPRISING

Mob Headed by Students Marches to Jail and Releases General Felix Diaz, a Nephew of Former President.—Madero and his Ministers seek Refuge in the National Palace.—Diaz is Straining Every Fibre to Gain Control.—Failure Means His Death.

By Bulletin Leased Wire.

City of Mexico, Feb. 9.—President Francisco Madero, with his ministers and a strong detachment of the loyal troops, is fortified in the national palace tonight, while General Felix Diaz, who has a large force of rebels at his disposal, has drawn control in the city in which several bloody encounters took place today. The president and his supporters succeeded in defending themselves against the rebels, and notwithstanding the fact that they were surrounded by a mob which carried all before them, there was an appearance of genuine optimism on the part of Madero and his ministers.

The rebels, however, remain resolute, reasuring news which he and his cabinet seemed to believe. The state governors and military commanders were assured of the loyalty of the army and that tranquility would be restored.

To a representative of the Associated Press, President Madero said the facility with which the new revolt had been suppressed was only another indication of the strength of the army and the loyalty of the army.

Say People Are With Him.

Pointing from a window in the palace to a mob, the most part carrying the national flag and crying "Viva" for Madero, the president said: "The people are with us, and the government stands alone, but that is not true. The government has the support of the people. There will be no more temporizing and we are going to fight."

Earlier in the day, shortly after the first outbreak occurred, Senor Madero declared martial law throughout the city and announced that he would ask congress to authorize a suspension of the guarantees throughout the republic.

General Huerta was named as post commander on account of the wounded of General Villar.

In the belief that the government had scored an easy victory, Foreign Minister Lazarus, Secretary of War, and others of the cabinet encircled one another and congratulated themselves on what they had done on what they called the new turn of events.

Mass Fight to the Death. Those who have been interested closely point out that General Diaz, who escaped being shot in the head during the battles, shooting down federal adherents in the streets, released General Felix Diaz, the leader of the revolution, from jail yesterday, and, falling into line under his banner, practically captured the Mexican capital.

Francisco I. Madero, president of the republic and the members of his cabinet, who were then being held captive in the national palace, had just made it to the roof.

The question now is whether Diaz is straining every fibre to depose Madero and with the large forces at his command, who are still outside, it is not likely that the present revolt will be the last within the capital until the fall.

President Madero was asked by the diplomatic corps to say whether he would give up his seat in Congress to foreign residents. The president did not answer at once, but he replied that he would do so if the rebels had with them only two or three thousand troops. The diplomats were a small number and are anxious that he might tell them that they would look to him to give such protection.

Refuge in Blanket. Madero, who has been separated with heavy losses by the machine guns, rifles and artillery. The total number of rebels estimated at 15,000. Three Spaniards were killed.

An American, E. L. Ramsey, formerly of Galveston, was seriously wounded.

Stray bullets entered the embassies building.

From his headquarters in the arsenal, Diaz sent a message to the ambassador, asking him to surrender with his forces. The president replied, "I am in possession of the city and the town is under my command." The president, however, agreed to accede to this demand.

The Rio Grande forms the boundary between Mexico and the United States, and the revolution was prematurely started. The rebels, they say, was set for March 1st. Juarez, the scene of the mutinies of last year, was quiet yesterday.

Develop Municipal Coal Mine Using "Short Term" Prisoners

Such Is Advice of Warden Gilmour, of Central Prison, Toronto, In Regard to Starting a Prison Farm Here—How Ontario Is Handing This Work.

Not a prison farm but "in your

country develop a municipal coal mine," says the advice of Warden Gilmour, of the Central prison, Toronto, to the government, and the rebels are confident of defeating him, should he refuse to join in their cause.

He writes to R. B. Chadwick, of the department of neglected children, Mr. Gilmour makes these remarks in a letter to the minister of justice.

"Our experience in Ontario leads us to think highly of the prison farms, and we believe that the same would be suitable for short termers and their productive work."

"If we want men to forsake their families, let them go to prison and pay for their good badness."

"In heating a farm get far enough away from city so that you will not be disturbed by the noise of the city, and the inmates distance from the city is helpful to discipline as friends will not be able to visit them while they are here."

FATAL SHOOTING AT NORTH RED DEER

Boy of Thirteen is Accidentally Killed by His Brother Two Years Old—Lad Who Did the Shooting Didn't Know That the Gun Was Loaded.

Special to the Bulletin.

Toronto, Feb. 8.—Another case of not knowing the gun was loaded happened in the vicinity of North Red Deer this morning, resulting in Bernard Clutterbuck, aged 13 years, being shot and accidentally killed by his brother.

The father, A. Clutterbuck, just left this week for England and the boy, who had been staying with a neighbor's and both boys were left home at night until a chum came along and the two boys went to bed.

This morning the boys got up and the Clutterbucks decided to go shopping, and Lawrence said he had better not go because he had not eaten breakfast.

He was told he could not go because he was accidentally the property of Afford. He claims that he thought they were both unloaded and he had no idea that the gun was loaded.

The gun was found lying on the floor and the coroner was shown on the scene. An inquest will be held on Monday morning.

TURKS FEAR BULGARIAN MOVEMENT

Attack Being Transferred From
Tchatalja Lines To Gallipoli
Peninsula.

CAPTURE WILL OPEN SEA
ROAD TO CONSTANTINOPLE

Heavy Fighting Near Scutari and
Bombardment of Adrianople
Continues.

By Bulletin Leased Wire.

London, Feb. 9.—Some light is beginning to appear on the brief despatches which contain almost all the available news, upon the military landing in the Balkan campaign. The Turks are attacking on the coast of the Taurus to land troops along the coast of the Black Sea and the Sea of Marmora. The last hostilities were only learned from unofficial sources and are now officially admitted and it is noted that Major Bay's report is correct.

It is believed that the British fleet, which has been reported to have been scattered, there have been some rumors, was an attempt to effect a landing at the mouth of the Dardanelles, the southeast of Rodosto, with the intention to relieve the pressure of the Turks on the Gallipoli peninsula.

This movement of the Bulgarians according to an uncensored despatch from Constantinople, is causing serious anxiety in the British government.

It is now known that the allies are marching in strength against Bulgaria, and that the Greeks have been

called in to assist in the defense of the Dardanelles.

This seems clear that the allies are abandoning the attempt to force the Tchatalja lines in favor of an attempt to capture the Gallipoli peninsula.

A lawyer, whose name has been previously mentioned in connection with the graft situation, is the third man whose indictment is expected.

The combination of the others with the trial of Captain Whitman and the confession of Patricius Eugene Fox and Captain Thomas Waldo could not be overlooked.

Whitman, who has been present at the trials, has been removed from the naval service.

He is to be an important witness in the trial of Waldo.

Walid reported yesterday that his patient would be able to go to the dock and other witnesses have also been summoned. The captain is expected to appear on Friday.

According to British reports, Turkish forces have taken over the Tchatalja and Tehoria, which would indicate that the Bulgarians have moved their headquarters to Teheria, and are moving their lines still further to the west.

Kingsford is due to Dethorne in order to closer to the scene of the military operations.

Again yesterday there is occurring near Scutari and the bombardment of Adrianople is still in progress.

There is no confirmation of a report from Constantinople that Turkey is sending a new peace delegation to London.

RESCUE RATES INQUIRY.
Railway Board Will Further Investigate Question of Telegraph Tolls.

Ottawa, Feb. 9.—In a memorandum sent to the Canadian government, it will resume the inquiry into the question of telegraph rates, which was suspended last summer, and to give an opportunity for the gathering of additional information.

Messrs. Jas. Pitblado, Winnipeg, and G. H. McLean, of Ottawa, are on the committee on the case, have been in Ottawa, two or three days preparing new data in connection with the matter.

**AYLESWORTH LOOKS
FOR ELECTION SOON**

Thinks It Probable That the Country May Have Contest in a Few Months.

Toronto, Feb. 8.—The meeting of the Ontaria Freeholders Association on Saturday brought with it much emotional discussion of the question of the proposed franchise bill.

In an address on this subject, Sir Alexander Aylsworth predicted that the bill would ultimately go to the country and further expressed the hope that it would result in a change of government. He considered it strongly probable that the Conservative party would face a contest with another general election within three or four months.

He gave as a "white slater" as other member of the "vise."

Aylsworth's wife, Mrs. Aylsworth, was declared by Mr. Walker to be the most popular woman in the house, authorizing the Richelieu and Ontario Navigation Company to pay fifteen dollars a day for her services.

With such wife left, we will go our direct way, eyes uplifted and hearts uplifted with true intent. Then

EVANGELIST SPEAKS TO LARGE GATHERINGS

Big audiences at morning and evening services at McHughon Methodist Church—Mass meeting of One Thousand men in the afternoon.

These stirring evangelistic services were conducted in McHughon Methodist Church yesterday by Evangelist Charles C. Eason, who has been here recently a clerk in the C.P.R. offices in Fort Macleod.

At 10 a.m. he addressed the audience, both morning and evening, and at 2 p.m. addressed the same mass meeting of men in the church hall.

Over one thousand men attended the afternoon meeting and at the evening service the church was crowded almost to its full capacity.

In the morning the evangelist spoke on "The Kingdom of God," and his address to the men in the afternoon was on the subject "Fools" and in the evening he spoke on "Saints."

The Bible words which expressed the evangelist's thought in the morning were "Behold your God, he always. Again I say Rejoice!"

I pointed out that in practically every place where the word of God was spoken that could be taken as a key word, and the key word of the book of Philippians was "Rejoice." This passage of scripture was taken as "Joy" and with it the word "Rejoice."

"I do not think it is a sin to be happy," said the evangelist.

Christians I know take the position that for a Christian to rejoice, to be happy, is a sin.

But I say that if a man's heart is just as much religion in a smile as in a groan."

"Rejoice the Lord," he continued, "not in your circumstances. They may change. Not in your blue blood; but in your own standing; these things must come to you."

"Rejoice only in the Lord; He is always the same." This year joy will bring us more than ever before.

"Gospel of John," he said.

"Told of Gathering in England."

He told of a great gathering of people in England, and asked what was to discuss ways and means for the betterment of the working classes.

One speaker declared that education was the best way to meet the problems and his address won applause.

Another said "Educate the workers,

ing classes," and his views also were approved.

In a third speaker took the platform and declared that the real solution of the problem was regeneration, the hearts of the employers and the employed throughout the country.

Both speakers were well received.

"Additional appointments were also made to the staff of the college," he reported.

The building of this large institution will do much to develop the resources of the province, and the river will connect with the Saskatchewan, and the Assiniboine, and the Red River, and the St. Lawrence, and the Great Lakes.

It is estimated that at present much of this territory is not a part of the city of Stratford.

At the Mass Meeting.

At the mass meeting in the afternoon, Mr. F. E. Peat, Dr. Riddell, Mr. Waggett, Mr. W. Davidson, T. Taylor, S. Peat, F. Fairweather, H. Bird and J. G. Rogers, P. Hainstock, J. Lee.

Third Class—Foster, W. H. Day, D. Longmire, J. D. Snook, F. Cook, J. H. Ball and L. N. Hougham, D. Cameron, J. Lee, H. Bird, F. Rogers and Penich.

Fourth Class—H. Berry, F. E. Kemp, K. Kingdon, H. Bosworth and J. M. Waggett.

Fifth Class—W. Berry, F. E. Kemp, K. Kingdon, H. Bosworth, J. M. Waggett, J. M. Waggett, W. Davidson, T. Taylor, S. Peat, F. Fairweather, H. Bird and J. G. Rogers, P. Hainstock, J. Lee.

Third Class—P. Hainstock, J. Lee, F. Fairweather, H. Bird, D. Longmire, R. Clegg and C. Schobold, L. N. Hougham, Penich, D. Cameron, J. Lee.

Their Majesties Hold Court

LONDON, Feb. 8.—There was a royal audience at the Palace of Westminster last evening, when the King and Queen held the first court of the season.

The Queen's robes were somewhat more subdued in color and ornamentation than usual, but they were nevertheless very becoming.

The King wore the uniform of the colonel-in-chief of the Coldstream Guards. The Queen's ladies-in-waiting were having diamond embroidery with a train of Honiton tapestry lace, which was very becoming.

Both the Queen and the King were somewhat more subdued in color and ornamentation than usual, but they were nevertheless very becoming.

Here Mrs. McCall was wearing silver-grey satin with a large black cord and black and a large black picture relief with white opaque pearls.

Mr. Kenny MacLeod, wearing short silk in the arms and rose tones and blue-grey.

Misses Gallacher wearing mauve satin.

Little Rachael McCall opened the afternoon.

About eighty called during the afternoon.

NEW GOVERNMENT HOUSE

situated on the banks of the Saskatchewan River, the new Government House commanding a magnificent view of the valley, the Parliament Buildings and the High-Level Bridge, is "the new

dress of black velvet, trimmed with jet fringe. The drawing room and den were gay with red carmine and gold, while the dining room, a golden daffodil, held sway. Mrs. Miller in blue silk with seal hat preceded at the tea-table, while Mrs. J. H. Hartwood refreshes.

The marriage was quietly solemnized at First Baptist Church, on Friday afternoon, of Miss Edith Miriam McCall, daughter of Mr. and Mrs. David George Thomas, to Edward Ferdinand Webb, M.O.S.C., D.D.—tearful, but happy.

The bride, who was unattended, wore wine-colored satin cloth, with a wide lace border. The bridegroom was a handsome suite of furniture.

After the ceremony, the bridal party drove to the bride's home in the Schwartz block, where refreshments were served and many old friends, Mr. and Mrs. McCall and Mrs. Webb, with a few intimate friends, went to the Empress.

Mr. and Mrs. Webb have taken up their residence at 102 Jasper avenue, no. 1, being Mr. Webb's office.

SENTENCED TO FOUR YEARS.

Four years was the sentence meted to Frank Jackson, the colored man, charged with theft from his victims city stores, before the Court by Judge Taylor on Saturday.

The sentence from which Jackson had stolen were the Chown Hardware, the Brooks and Hunter Drug Company stores, and the articles stolen were cutlery and clothing.

The two colored women, Eliza Ethel Williams and Grace Ford, who had been charged with stealing \$175 from a few days ago, were sentenced to hard labor and nine months' hard labor respectively.

In sentencing the prisoners, Justice Jackson declared that they had been guilty of a serious offence, which carried it with the law.

But it had always been ruled that if one was tried first, though in this case there was the interesting fact that he had been tried first, that deliberately and not as the result of sudden temptation, to go to some extent, to believe that they were the dupes of another, and that was uncertain to what extent they thought about the offense.

The sentence was going to pass would be very lenient, and I hoped that it would be given to them. There was plenty of honest work to be done in Canada without resorting to such means as this," he said.

He warned them that if they offended again the penalty would be much more serious.

ELEVATOR MAN EXONERATED.

Indict Into Death of Western Farmer in Toronto Hotel.

Forced to give up his exonerated elevator operator from all blame as he did his best under the circumstances; but we would recommend that automatic doors, which should open and close more rapidly, be installed on such elevators for better protection of the passengers.

The coroner's inquest sat yesterday and tonight at the inquest into an elevator accident at the Walker house, in which James Shaw, a horse buyer of Weyburn, Sask.

Mr. Thomas Mercer, a farmer, of Martensdale, his best friend of the deceased, and several others of the party, stated that the operator was to blame.

Evidence as to the good running order of the elevator was given by William H. Smith, elevator expert, and other elevator experts.

The car traveled at the rate of four feet per second.

MISSIONARY AND WIFE ANNEXED, 400,000.

Magistrate Thought That His Explanation Was Inadequate and Called in the Barrister for Investigation.

Paris, Feb. 7.—A former magistrate, now a barrister, Bismarck, North Dakota, who was accused of having obtained control of and misappropriated \$400,000 from a trust fund of a young man named Jussstrand.

Jussstrand told a remarkable story of his life, and explained that Bismarck made the acquaintance of his parents a few years ago and soon gained extraordinary influence over them, and induced them to give him to his care. Bismarck then, she charged, succeeded in extracting from Jussstrand a large sum of money, and gave him a bad character. These reports, Miss Jussstrand said, also caused the death of her mother.

At her death, however, the mother left her \$16,000, of which Miss Jussstrand was the sole beneficiary.

At the hearing, which was in the matter of a claim of \$15, R.L. 18, \$1,000,000, was filed by the Chief Justice Harvey for the plaintiff for \$475, the full amount claimed for work done on the building and on the building on the said property, and judgment was also given for the enforcement of mechanics' liens against the contractors with costs of action, court claim dismissed with costs.

IN THE POLICE COURT.

At the hearing of the case of Sam Konyn and John Morrison, both thankins, were each fined \$15 and \$10 costs for assaulting a peace officer, who had arrested them for disorderly conduct and international trade.

Louis B. Smith, on the charge of theft, was dismissed.

R. Simpson, on the charge of procuring liquor, was found guilty, pleaded guilty, and was fined \$10.

John Evans, who had given the name of Matthew Mackenzie to the premises he occupied, was fined \$10, while eight other tipplers were fined \$1 and \$10 costs.

Gloss Marbach, for the seduction of a girl under fourteen, was committed for trial.

THE PRODUCT MARKET.

Producers were sending live hogs for hind quarters of hams but the tendency to higher prices wholesale do not seem to have any noticeable effect. The market was in the hands of \$16,000 by Major Price Courtney, on charge filed by Mrs. Mary Evans, mother of the negro's 19-year-old son, who was shot dead in a bar last week, but closed 1:8 to 8-8 bright.

London, Feb. 7.—The story of an unwise cargo sent to the Far East, which had to be returned to Europe, has been told yesterday in a high court in a suit brought by Ingram and Royle of Leithbank, against the Standard Trust Company's steamer "Sparta" and Captain Hardy left Tropic, carrying two tons of metallic sulphur, which exploded and caused extensive damage to the ship.

During the storm the sodium broke loose from its lashing and water reached the engine room, causing the captain played a hose on the cases, which blazed with a series of explosions, and the whole lot thrown into the sea, but several cases were washed aboard. The ship had to be towed to the James reached the engine room, and the crew took the boat, ahead of the vessel, including the captain had to be left to the waves.

It had better be left to the waves, because the line that will be taken to determine the cause of the explosion of the cargo may be a long one.

"I should concentrate the attack on the speaker, accusing him not only of being a scoundrel, but of killing the woman suffrage amendment in the House of Commons Shaw," he said.

"I shall not meddle with the meeting; it had better be left to the waves."

ACCEPT BONDS FOR PROPERTY CIVIC CENTRE

Owners of Property Will Sell
Land to City Without
Cash Payment

PROPOSITION WILL BE LAID BEFORE COUNCIL

Three Blocks of Land to Be Ac-
quired on Valuation of
About \$2,600,000

With some \$12,500,000 received in the transaction, owners of the three blocks of land lying between Rice and Isabella streets, and McDougall and Queen's avenues, are offering to sell their holdings to the city without one cent of actual cash being paid for them.

The offer was suggested by A. T. Morell, executive planner, and others, as being the best in the city for a civic centre. The owners are offering to accept debentures in payment for the property, no further responsibility being attached to the city.

C. P. Newell and other prominent citizens who are keenly desirous of seeing a civic centre started feel that the offer is a good one, provided until now it is nearly ready to be presented to the council. The total value of the property is worth on up to \$15,000,000, half million dollars. About fifteen people are the owners of the three blocks of land. The present valuation of the properties per front foot is \$1,300. All the owners except three have practically sold their properties to the city, bonds instead of cash for their lands.

Two owners, who own only two lots, are the Rice and Queen's. David F. Ogart, one of some of the property, Mr. Newell interviewed him this week, and will receive an answer by next Friday.

Interviews have been held between the mayor and commissioners and the proposed civic centre, and the city officials have expressed their approval of the scheme. The city is immediately interested, and the city does not wish to have to pay out cash for the property. The proposed scheme is to be submitted to the council.

It was suggested that owners might ask a higher price for the property, as it would be more valuable when received.

Mr. Newell declares this is not the case. The owners are asking only a reasonable price, and the city owners and the price asked for each lot will be shown in the memoranda to the council. The city wants everything to be very open and public in regard to the transaction if the city sees fit to proceed.

What would be done with the bonds, one of the owners states that as far as he was concerned, would hold his while others might

Keeling, a noted property factor, of Wilmot, in a fit of rage, snatched the timepiece from the feed trough, and a hog promptly swallowed it. Judge Kellie then bought the hog for \$10 and had prepared it for dinner, where he will butcher her, and recover his watch.

Keller is the judge who, while passing through the town, found her in a western show last fall, had the misfortune to have a large set diamond picked from his setting in a ring.

Ask Release From Court.

London, Feb. 8.—Mr. Godfrey Isaacs, managing director of the Canadian Rubber Co., yesterday wired to the Postmaster General that the company be released from its contract with the Government. He said the company is being prejudiced, as it has been obliged to pay a heavy fine which it will have to pay before it can get back its money.

He wired to the Postmaster General to enable Mr. Marston to carry out the work undertaken, a sum exceeding \$1,000,000.

Suffragettes Attack Kew Gardens Destroying Many Rare Orchids

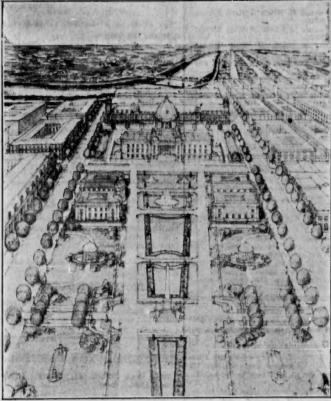

By Hiding Themselves in the Gardens Overnight Militant Women
Were Able to Carry Out Their Depredations Undetect-

London, Feb. 8.—Militant Suffragettes destroyed panes of glass and did other damage representing a total of \$4,000 in the Royal Botanical Gardens during the early hours of the morning. They developed another part of their plan of campaign to force the Government to give the vote to women.

They believed that a number of women had themselves in the gardens overnight, for this morning, long before the day staff came on duty, it was

found that a large number of rare orchids had been uprooted and scattered in all directions. Thirty panes of glass in the orchid houses were broken. The postal authorities today issued a notice that there would be a delay in all letters to and from England, as the result of the cutting or telegraph wires in the province by the suffragettes yesterday.

Eastern Supply Houses Dumping Renovated Butter in The West

Investigation in Saskatoon Disclosing Fact that Bad Butter is Being Sold at Market Prices, Leads to Conclusion that Other Western Cities Suffering in Similar Manner.

Bulletin Special.

Under the Dominion Act Mr. Wilson explained that it would be possible for the city to institute prosecutions against such persons as those who have been sent samples of some of your local butter, several samples of which were sent to the authorities at Ottawa. Such is the statement made by W. A. Wilson, dairy commissioner for Saskatchewan, along with G. H. Barr, chief of the dairy division at Ottawa, in investigating the butter situation.

Civic officials were congratulated on their action in the matter, and for having sent samples to the testing analyst at Ottawa. Already it has been reported that under ordinary circumstances it would be difficult to detect the bad butter. It is believed that the conditions in Western Canada lead themselves most advantageously to the production of bad butter by large eastern houses who, because they do not have the local supply to meet the demand, were enabled to sell this renovated butter and obtain market prices for it.

Five American Men-of-War Are Ordered to Proceed to Central America Where Trouble in Latin Republics Is Expected.

Washington, Feb. 8.—Preparations for rushing five United States men-of-war to both coasts of Central America were completed yesterday, a sailing, trembling tremor in the upper torso of vertebrae collapse, al-

most terminated his examination by the Undersecretary of the house money trust committee here today. Mr. Rockefeller, who had been ill for several days, was still physically unfeathered before the attack forced the conclusion of the hearing.

The aged Standard Oil magnate elected with the committee for only twelve minutes. At the end of the examination he was seized by a catch by Dr. Walter F. Chapelle, his physician, who declared his patient exhausted. In Mr. Rockefeller's opinion he had been ill for several days.

Members of the Jekyll Island club and Dr. Walter F. Chapelle tonight shook their heads doubtfully, when asked about Mr. Rockefeller's condition.

"Mr. Rockefeller is in a very serious state," said Dr. Chapelle. "He has a spinal condition of a malignant nature recently had formed in Mr. Rockefeller's throat and that serious development were to be expected at any time."

NO CONFIRMATION OF GREAT BATTLE

London, Feb. 8.—A sensational report that the Turks suffered a crushing defeat at the hands of the British army in a battle fought in the dunes of Gallipoli and lost 15,000 killed and 10,000 prisoners, which was published in Berlin this morning, received no confirmation or support from any other source.

It is doubted here whether such a battle could have been fought in the dunes of Gallipoli, and the English headquarters hastening official to the world.

The British press here this afternoon made no reference to any battle in the dunes of Gallipoli.

New York, Feb. 7.—Despatches to Dun's Review from branch offices of R. G. Dun and Company, the leading credit rating organization, indicate that trade continues fatiguing activity, with colder weather stimulating the market.

Montreal reports that city wholesale trade is maintained in most lines and that there is an excellent employment. Dry goods are in fair demand, the leather and hide markets are steady and there is a liberal movement of groceries.

At Toronto shipping business in dry goods has been maintained by low rates and the cost of delivery are put up to the average. The movement of hardware is good and there is a steady demand. Leather is very firm, but hides are easier.

Colder weather at Hamilton has stimulated sales of winter goods and the volume of business on the whole is fair, according to Dun's.

We Continue To Thrive.

In the far west and northwest general conditions continue favorable.

Winnipeg reports a steady sale of groceries and provisions, but the movement of clothing is quiet. Receipts of grain are good and large and quotations have advanced.

At Saskatoon general business is fair and active preparations are being made for increased building.

Regina trade is very active and is reported better than ever before.

Marketers at Edmonton are stocking up liberally and the current movement of merchandise is in large volume.

Winter weather has stimulated the demand for winter goods at Calgary, but outdoor operations are curtailed.

Edmonton is in fair condition, but interior towns are doing well and improvement is expected. The weather is cool and spring is near. Retail trade is quiet at Victoria, but general conditions are good.

Gross earnings of all Canadian railroads reporting to date for December show an increase of 11.2 per cent., as compared with the earnings of the same period for the corresponding period in 1911.

Commercial failures in the Dominion totalled \$1,160,000 last year, and \$16 against 22 last week, and 42 the same week last year.

**CHICAGO CLUB WOMEN
PUT ON AN APPLE SALE.**

Chicago, Feb. 8.—Club women, who recently conducted an apple sale, went into the apple business yesterday, and last night it was announced that the 100,000 apples which had been displayed off. The sale is on again today.

The apple sale will be in about the grocery stores in Chicago. No money was invested by the women, but they arranged the bags and labeling prices and took orders for the apples.

All apples were sold at less than the regular price, and the money for them by the retail dealers in the last few weeks. Many apples were sold at 10 cents each, and by selling a raise in price, and it was this condition which caused the women to start the sales.

**PROVINCIAL LAW MAKERS
WILL HAVE BUSY SESSION**

Notice Already Given of Fifty Private Bills To Be Introduced During the Session—Municipal Legislation and Railway Bills Are Important Items.

There will be no lack of business set respecting the jurisdiction of the city council. Extended powers are asked for the city to regulate the entertainment of guests and public expenses, together with power to tax for the purpose of the maintenance of the ratemakers thereto. The city wants increased borrowing power and the bill seeks to empower it to acquire, construct, rent, lease or sell real estate in the city concerning the control of gas and water in the city, the collection of lands for various structures and for municipal purposes, remunerating the rights of persons holding leases and the right of sale "in other respects." Evidently the council of the natural gas city are eager for more.

Bonding of Industries.

Application will be made for a charter for a company to be located at Calgary. Stettler seeks a private charter, and Cardston wants amendment of the existing one. The bill will seek an act validating an agreement made between the town and Charles T. Tabor, of Lethbridge, to establish a flour and grist mill in the town and is to receive certain assets of the old mill. The bill also provides for bonding power greater than the railroads committee set up to give advice, and this committee would be asked to do its best to "see the safe side."

Sometimes the bonding power is set in two, with one part of the bill seeking to extend the funds necessary for the construction of their line. Careful scrutiny of these bills and those of the grain and meat companies, in order that their shippers may be kept advised of the changes in the law and federal legislation.

No Free Legislation.

Holmes bodies promote a good deal of legislation. Usually this is non-controversial, but in cases where the legislation makes considerable changes in a semi-private nature, the powers to be granted are very carefully considered before which they come up. Till last session the legislature had passed the \$100 fee within most domestic private bills where the bill authorizes a new corporation or a new institution, but this class of legislation has grown so much that the legislature has been unable to keep up with it.

It was felt that in some instances private bills were asked for which the legislature could not easily accomplish just as well as by registering as a company. Judging by the present trend of legislation, it is probable that the next session will be even more liberal in this respect.

Proposed legislation at the present time is as follows: a bill to amend the retention of the \$100 fee has not proved a hindrance to the passage of many chartered legislation bodies.

Memorial Legislation.

Municipal legislation will be presented to the legislature in four cities of the province as each asking for charter amendments, while Red Deer asks for a bill to amend the bylaws of its town before the next session.

Deer Park, Alta., 12,000 people, will seemingly not be out of the way for a city population.

It was felt that in some instances private bills were asked for which the legislature could not easily accomplish just as well as by registering as a company.

When the bill is introduced, it will be asked that a minimum population will be fixed in future, possibly in the number of 10,000, to require a town to have before applying for a city's standing.

SPORT**Dominions and Eskimos Clash Tonight for Hockey Title****SPORT****Tonight's Game Will Decide the Hockey Championship**

Eskimos and Dominions Both Out To Win Title of Northern Champions—Immense Crowd Assured—Several Changes May Be Made In Dominion Line-Up—Game Starts at 8:15.

On tonight's game at the Prairie Park on Saturday night and hoped rank between the Eskimos and Dominions is about to be settled than last Wednesday night, when they were so decisively beaten. Manager with a smile said: "The manager McKenzie is not worrying yet, but he believes that his team is capable of winning." He added: "We are better than last Wednesday night, and is contending several changes in the line-up, which gives the team a chance to win the game." The coach, Art McDonald, the ex-Marine, who has been a great help to the team, is now on the job, having been released by the provincial championship, and if successful, will be the first to win the Allan Cup, the highest honor which amateur hockey team in Canada can win.

An immense crowd is again assured tonight, Saturday night, and a large number of spectators from all over the country have come to see the game. By night the plan was practically made to start the game at 8:15, but even the raising of the prices failed to bring in more spectators. The fans who proceeded to go up to the arena were disappointed, however, as the price of admission was the same as the one which the spectators had paid to avoid a repeat of last Wednesday night.

Goals Scored at 8:15.

Referee Peter Burley will call the game at 8:15, and the officials have advised to be on hand early as it would be impossible for a hundred or more spectators to get in before the start of the game.

The veterans of a hundred battles are expected to be on hand to witness the trick again. Trainer Harry Walsh has been in touch with the officials, and it would be a good idea to avoid the rush in the word.
